Pure Water

Headquarter - Sungai Buloh, Built up 3.0 acre, Land area 4.0 acre

*We take passionate in doing what we do best
at helping the general public to understand*

The Benefits of Drinking Clean Water in their Daily Lives.

OUR AIM

Is to be a trusted and collaborative high value-added manufacturing company in bringing the best technology in Water filtration products and providing the latest and complete information of contaminants in our tap water.

our Manufacturing sites are

ISO 9001: 2015 CERTIFIED

MANAGING DIRECTOR

Mr. Jackson Ong

Managing Director

*A*s a **Managing Director** as well as the founder of Filter Man and Miharu Sun Ice, he has led the company through a phenomenal growth period from a single entity shop-lot in the early years to multi-site factories / warehouse in Sungai Buloh.

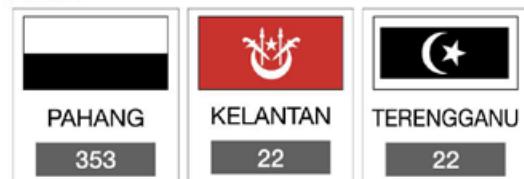

Jackson has vast experience in leading his team to provide solutions in manufacturing assembly as well as sales support to its customers locally and globally. Under his leadership, Filter Man has acquired a well-deserved reputation for consistent product quality in the water filtration industry.

DIRECT HEATING, CHILLING WATER PURIFIER

직접온 가열, 직접온 냉각 청수기

ELECTRONIC COOLING | PIPE-IN SYSTEM | 2 WAYS FILTRATION

The image shows a white water purifier unit with a dispensing nozzle at the bottom. Above the nozzle is a control panel featuring several buttons and indicators. To the left of the main unit, there are two circular icons: one red with a white 'H' labeled 'DIRECT HEATING' and one blue with a white 'd' labeled 'DIRECT COOLING'. Below these icons is a close-up view of the control panel's buttons, each labeled with a letter from A to I.

Cooling Method	Direct Cooling System	
Dimensions	(W) 180 x (D) 514 x (H) 407mm	

Filters

Step 1. Micro Carbon Filter
(Carbon Block) - 4 mth
* Micro Carbon Filter reduces sediment particles such as dirt and sand down to nominal 5 micron in size from feed water, and absorbs some of harmful organic chemicals such as chlorine, bad taste and odor.

Step 2. NANOFACT Plus Filter (Cellulose + Compressed Carbon Block) - 12 mth
* Removing water contaminants more than 0.25μm such as waterborne, Colon Bacillus, bacteria and Noro Virus.

Features

SELF STERILIZATION BY UV LED

UV sterilization can sterilize more than 99% of the bacteria, colon bacillus and staphylococcus aureus.

DIRECT CHILLING SYSTEM

Airless direct chilling system can offer more hygienic water.

DIRECT HEATING SYSTEM

Direct heating system can make the hot water instantly and can save the electricity.

SMART NOZZLE

Freely adjust the length of nozzle.

3 STAGE HOT TEMPERATURE

Easy to adjust 40/70/80 degrees hot water.

3 STAGE DISCHARGE QUANTITATIVE WATER

Easy to adjust 120ml / 550ml / 1500ml discharge water.

 - Post Block
 - UF membrane
- Electric: DC220V, 2.4KW
- Dimension (W x D x H)
 - 144 x 462 x 355 (mm) / 4kg

Filters

Compound (Sediment + PRE Carbon)

1. Sediment filter : It removes dirt, dust, sand, rust and other solid particles before they reach pre-carbon(Or block carbon) filter. It protects pre-carbon filter from being clogged.
2. Carbon Block filter : It made of high purity activated carbon. It removes chemicals, residual chloiring, toxins and unpleasant flavor and odor which are hard to be biodegradable/

Post Carbon Filter

Increase water purity by removing gas and bad odor which remain inside water.

UF Membrane Filter

It removes a variety of bacteria, other microscopic impurities and harmful organic chemicals inside water effectively.

Power saving at night by ECO (Illuminance Sensor) function
Heating system automatically stops when it becomes dark at night. (The ECO system works when the illuminance is measured at under 1 lux.).

When it becomes bright in the day time

The cooler will be working automatically when the sensor detects light.

ICY COLD

Ice Cold Tech helps to reach the lowest temperature till even 6°C for you to enjoy icy cold water at all time.

Features

1. Stainless steel frame and shell, firm and durable
2. Offering of hot, cold and room temperature water
3. Through the hot water temperature indication display, you can always get the exact temperature of the hot water.
4. Top brand compressor cooling system, fast and great capacity
5. Great volume storage tank,
6. Exclusive design of drip tray, never spill water
7. Exclusive float control and overflow system in storage tank, safe and reliable.
8. Food grade stainless steel hot and cold tanks, healthy and safe.
9. All food grade brass or silicone internal tubing and connector
10. Application: office, school, hospital, supermarket, train station, airport, restaurant and other public place.

SEAMLESS DESIGN

The one piece tank prevents from any water leakage.

COMPARING WITH WELDED COLD TANK

- ① Stretched cold tank is not easy to generate incrustation.
- ② Stretched cold tank is much better on preventing water to leakage than welded cold tank.

100% TRUE BOILING TECHNOLOGY
100% 真沸腾技术

HIGH-PRECISION FILTRATION
高精过滤 杜绝水垢

OPEN
Item

Model: DH-110 (Separate)

Type Pipe In Type - Hot & Hot

Water Tank Capacity 60l

Water Supply 69l/h - 110l/h

Power Consumption AC380V/50Hz

Dimensions Body:
W560 x D385 x H1065mm

Stand:
W560 x D605 x H680mm

Stainless Steel Body Stand

Features

Table Top with
water tray/水盘

HIGH-PRECISION
FILTRATION
高精过滤 杜绝水垢
Stainless Steel Body
Stand with 10" PP & 10"
CTO Housing Filters

Step-by-step heating

Energy efficiency

Multi-point water
level control

All-round protection

Special Anti-water scale

Intelligent management

STAINLESS STEEL WATER BOILER

Model:	GM-GB-40E (40L)	GM-GB-60E (60L)
Rated Power	3kW	3kW
Rated Current	13.6A	13.6A
Rated Voltage	220V	380V (Alternating current of 380V)
Recommended Power source	Socket of 16A	Three-Phase Five-Wire
Volume	40l	60l
Dimensions (mm)	W420 *D330 *H630	W420 *D330 *H760
Quantity of continuous boiled water supply	15l (5-pound thermos bottle)	37l (5-pound thermos bottle)

Features

96°C high water temperature,
design to ensure drink quality

Adopting patented step water technology and imported chip electronic temperature control to ensure high water temperature of 92°C - 96°C water supply.

8 Way Protection

Surge protection

Flameproof design

Water leakage protection

Anti-dry protection

Anti-scalding child lock design

Anti-overflow protection

Explosion-proof zero pressure design

High and low water pressure protection

OPEN ITEM

|---|---|
| Features | |
| - Step by step feeding water, Layer by layer heating | |
| - Control panel with LED indicators | |
| - High capacity of dispensing water continuously, meanwhile feeding water into tank | |
| - Anti-creeping, Anti-dry heating, Anti-fire, Anti-lid opening, Anti-steam | |
| Electrode for water level | Insulation cotton for inflame retarding and avoid heat loss |
| Food Grade materials heating elements with thermal bridge block design | Electrode for water temp. |

STAINLESS STEEL WATER BOILER

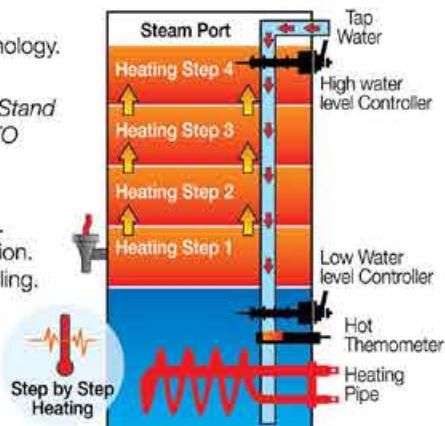

Model: SH-12BG (HN)

Type	Pipe in Type - Hot & Normal
Water Tank Capacity	12l
Power Rating	1.5KW
Power Consumption	240V/50Hz
Dimensions	W320 x D245mm x H590mm

Step-By-Step Heating System

- No reboiling water.
- 100% true boiling technology.
- High precision filtration.
 - Stainless Steel Body Stand with 10" PP & 10" CTO Housing Filters.
- 80% energy saving.
- The first smart cleaning.
- Whole pipeline sterilization.
- Easy to clean, really boiling.

Features

Option 1:

Table Top

Option 2:

HIGH-PRECISION FILTRATION
高精过滤 杜绝水垢
Stainless Steel Body Stand with 10" PP & 10" CTO Housing Filters

S304 Heating Pipe
LED Display

Anti-hot handle
Heat exhaust

High degree of fire retardant foam
Copper heating tube

STAINLESS STEEL WATER BOILER

STAINLESS STEEL WATER BOILER

Model: JN-A-2A20

Features

Product number JN-A-2A20

Power supply 220V/50Hz

Rated power 2000W

Water boil capacity 15L

Water outlet type Open and warm

Water production capacity H 20L/h N 60L/h

Water purification system PP cotton + granular activated carbon + molding

Number of people serving drinks 50 people

Dimensions 460×360×1025mm (LxWxH)

HIGH EFFICIENCY AND ENERGY SAVING

Steam heat energy recycle.
The water tank is made of high-efficiency insulation material.

STAINLESS STEEL MACHINE BODY

The body is rust-proof and more durable.
Food grade material water tank is more healthier.

INTELLIGENT ENERGY SAVING

Microcomputer mainboard is intelligently controlled,no water can come out without boiling.

HEALTH

High-precision filtration makes the water more pure.
No unbodied water and repeatedly boiled water.

INTEGRATED SINK

More beautiful appearance.
Water leakage prevention.

SIX-FOLD SAFETY DESIGN

Electricity leakage prevention,
dry burning prevention,anti-crack prevention,over current protection,over voltage protection, ultra-high temperature protection.

DIGITAL ALKALINE WATER IONIZER

디지털 알칼리 물수정기

MADE IN
KOREA

DIGITAL DISPLAY COMPOUND FILTER | ALKALINE WATER | PIPE-IN SYSTEM

Model: ION 9900T

Electrode plate	3 Platinised-Titanium Electrode Plates
Power Consumption	100 Watts
Voltage	100~240V / 48~63Hz
Approx. Weight	Approx. 5kg
Dimension (W) x (D) x (H)	270 x 122 x 364mm
Water Supply	15 to 60 PSI
Water Pressure	120 VA , Transformer
Electrolysis Method	Continuous Electrolysis
Indicative pH	Alkaline - 4 phase, Purified, Acidic - 2 phase
Water Inflow Rate	Recommended 2.0 Litres / min
Cleaning Device	Auto Cleaning Water Cell
Filter Type	Standard Advanced Ultra Hollow Membrane Filter NP8UF
Filter Capacity	3,000 Litres (up tp 12 mth, based on about 8 litres / day usage)
Control Panel	Touch Panel / TOF Sensor
Safety Features	Excessive Current Control

Features

IoT Connection

Connected to intelligent smart home control system and smartphone App

Smart Intelligence processor

Produces a precise electrical flow voltage through the electrolytic chamber cell. Water molecules (H₂O) are separated into acidic (H⁺) and alkaline (OH⁻) water.

Ultra Purification System

Tested with proven efficiency by Korea Testing & Research Institute (KTR).

Best Electrolysis Cell

- Automatic Polarity Reverse Cleaning Cell
- Dual auto cross cleaning cell

Clean Filter Tech

- 1 filter NSF approved material Approved by KFDA passed 56 filter test

Convenient Function

- 5 language voice instruction (English, Spanish, German, Chinese, Korean)

DIGITAL ALKALINE WATER IONIZER

디지털 알칼리 물 이온화기

MADE IN
KOREA

DIGITAL DISPLAY COMPOUND FILTER | ALKALINE WATER | PIPE-IN SYSTEM

Model: ION 7200

Electrode material	Platinum Plated Titanium
No. of Electrode	5 plates
Cleaning Method	Reverse polarity after working
Phase	Alkaline 5 phase, Purified, Acidic 2 phase
No. of filter	1 filter
Voltage	230V/50Hz
Power Consumption	120 VA , Tranformer
Temperature of Source Water	5~30 °C
Available Water Pressure	0.7~5 kgf/cm ²
Dimension	385mm(H)×284mm(W)×134mm(D)
Weight	About 7kg
Operation	Touch Switch

Features

Best Electrolysis Cell

- Platinum Plated Titanium.
- Automatic Reverse Polarity Cleaning.

Beautiful LCD display

- Various Color backlight
- Touch Switch.
- Easy Icon, ORP display.

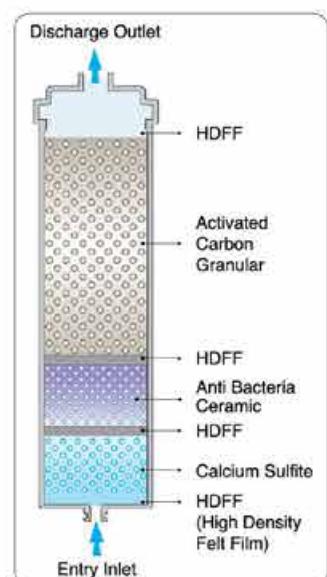

Special Function

- 5 language voice.
- 7 level water selection.

Convenient Filter

Replacement

- Easy replacement.
- NSF certified material.
- 3,000 liter life span.

DIGITAL ALKALINE WATER IONIZER

디지털 알칼리 물 이온화기

MADE IN
KOREA

DIGITAL DISPLAY COMPOUND FILTER | ALKALINE WATER | PIPE-IN SYSTEM

Model: WIZ-6000

Electrode material	Platinum Plated Titanium electrode
No. of Electrode	5 plates
Cleaning Method	Pre cleaning (3 sec) after cleaning (10 sec)
Phase	Alkaline 5 phase, Purified, Acidic 5 phase
No. of filter	2 filters
Longevity	No. 1: 6 months (3,000ℓ) No. 2: 12 months(6,000ℓ)
Filter Replacement	Front door open
Filter Material	Filter 1 - Sediment, Block Carbon, UF (optional) Filter 2 - Activated Carbon, Anion Ceramic
Voltage	100V-240V, 48-63Hz
Power Consumption	300 VA, SMPS power supply (9 plates)
Temperature of Source Water	5-30°C
Water Pressure	0.7-5kgf/cm ²
Protection System	Fuse 4A, bimetal, built-in temperature sensor
Dimension	(H) 385mm x (W) 289mm x (D) 148mm
Weight	About 6kg
Operation	Touch LCD
Display	Full color TFT LCD display

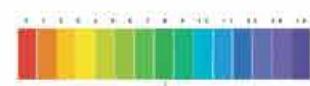

Features

7 language voice instruction (Korea, English, Chinese, Spain, Germany, Russia, Vietnam).

Full Colour Touch
TFT LCD Display.

pH manual setting every pH level.

By using SMPS power supply, energy is saved without consuming standby power.

Features

Non-electric appliances

- Save your money for electricity bill of lifetime.

Tankless

- More fresh and hygienic purified water to consume.

Clean and safe

- Enjoy clean purified water with multi-way filtration.

Minimize and compact design

- A modern slim design that looks great and easily fits into small kitchen, office or wherever space is limited.

Food Grade Material

- Food grade material tubing and fitting.
- Stainless steel faucet.

D.I.Y. Maintenance System

Upgradable to D.I.Y. maintenance system such as:-

- Quick-change filter system.
- Backwashable filtration system.

3 WAYS INSTALLATION MULTI-WAY FILTRATION | PURIFIED WATER PIPE-IN SYSTEM

Model: MP-01

Type Purified Water (Normal Water)

Carbon Block Filter

5" Alkaline Enhancer

Functions:-

Sediment Filter

Effectively remove dust and rust, remains of which particles relatively big. Prevent various impurities from entering other filters in order to increase the filter performance and lifespan.

Pre Carbon Filter

The Pre-Carbon Filter uses granular activated carbon to purified the water by absorbing organic substances such as chlorine, heavy metal and odor.

Nano Silver Carbon Filter

Nano Silver GAC is a 100% pure coconut base carbon coated with SilverSol-200 for better anti-bacterial function & high absorption function. This filter absorb ethylene dichloride, bleach, pesticide, chlorine, odor, harmful chemical materials & chloroform.

Post Carbon Filter

The Post Carbon Filter get rid of chlorine, Trihalomethanes (THM), herbicides, color, odor, bleaching agents and other organic chemicals.

Alkaline Enhancer Carbon Filter

To enhance minerals absorption for our body, detoxifies waste accumulated in our body and regulate body pH balance to mild alkaline.

Carbon Block Filter

This is a compressed granular activated carbon make of 100% coconut base shell. Which is 7 times higher than a normal GAC filter absorption. This filter absorb ethylene dichloride, bleach, pesticide, chlorine, odor, color and harmful chemical materials.

Magico

Functions:-

Sediment Filter

As pre-treatment filter of water purification system removes bigger than 5 contaminants such as dirt, sand & oxide pollutants from tap water and protect membrane and pre carbon filter from being clogged.

Pre Carbon Filter

Prevent hydrolysis of membrane and enhances the life of membrane, it also absorbs residual chlorine and organic chemicals from tap water. The efficient removal of chlorine from water, thus providing a source of water which taste good and more likely to be consumed.

Post Carbon Filter

This filter removes any unfavorable taste or odors and gives the water a very pleasant taste and also absorbs residual chlorine & organic chemicals from tap water.

UF Membrane Filter

Has as small as 0.05 ~ 0.3μm pore size is well suited to remove bacteria, clay, particle, materials. However, the containing minerals in water pass through UF membrane filter has a superior water purification capability.

RO Membrane Filter

This system utilizes high pressure & a semipermeable membrane which only allow pure water molecules actually purifying the water at the molecular level. Bacteria, heavy metals, chlorine and disposed of in a waste stream. The membrane remains clean because the contaminants are washed down the drain. Only fresh, pure water results.

Sediment & Carbon Block Filter

This filter is complex concept form of sediment it removes contaminants such as dirt, sand and oxidic pollutants which are bigger than micron. This filter also absorbs residual chlorine from tap water.

QUICK CHANGE FILTER SERIES

필터 카트리지

MADE IN KOREA

Replacing PNP and PNP NEW filters is easy — simply twist off the old filter, discard it and twist on the new filter. And that's it! You're ready to enjoy filtered water again. No leaks, no tools, no plumber needed.

- Double o'rings to prevent leakage.
- High water flow rate.
- Durable quality from complete one-piece molding technic.
- Made In Korea (100% Genuine Products).

PENTAIR

- 55 years manufacturing experience since 1966.
- World largest professional water treatment equipment manufacturer.
- 500 biggest companies in America.
- 50 over branches globally.

Model: PENTAIR (HK) 1040

Standard colors Blue

Material Polyester - Standard

Operating parameter Maximum pressure - 150PSI
Maximum Temperature - 120°F
Minimum Temperature - 34°F

Diameter 10"

Height 40"

Max Vacuums 140mmHg (5.5" Hg)
(NEG PRESSURE)

Model: 51204K (F56K)

Handwheel: Plastic

Mount Type: Top Mount

Inlet/outlet: 1" F

Inlet/outlet: 1" F

Mounting Base: 2.5"-8 NPSM

Riser Pipe: 3/4" OD

Flow Rate: 4.5m³/h

Filter Tank: 6"-12"

Water Pressure: 0.15 - 0.6Mpa

Water Temp.: 5 ~ 50°C

- Features:**
- Hermetic head faces structure.
 - No hard water bypass and operating can happen on service.
 - Manual regeneration: handle could be rotated and assembled within 180°.

Features

- "Sunlight" & corrosion resistant.
- Zero transparency on pressure vessel, inhibit growth of alga and fungus.

One piece seamless molded vessel with no weld or join.

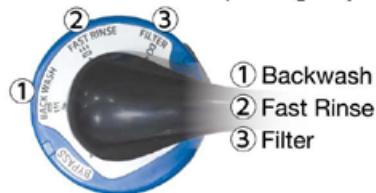

Superior Strength and Durability
Vessels are constructed with superior VMP technology (Vacuum Moulding Process). It provides dependable strength and durability to withstand operating water pressure more than 1000kpa as well as inconsistent cyclic pressure.

Vessels Material of Construction Polyester (Food Grade Inner Shell)

The ideal choice for residential and light commercial water treatment applications that require flexibility.

Improve your water treatment system with FRP vessels. Easy to handle and to install, FRP vessels are available in standard polyester or chemical-resistant vinylester construction depending on your needs.

Step 1. Backwash: Turn the MPV to "Backwash" mode & let the sediment flushed out until the water appears clean. It takes about 5-10 minutes.

Step 2. Fast Rinse: Turn the MPV to "Fast Rinse" mode to ensure the filter water is clean. Time of rinse is about 5-10 minutes.

Step 3. Filter: Turn the MPV to "Filter" mode and the filter backwash system is complete & the filter is as good as new!

* Recommended to perform backwash every 7 to 10 days interval. 94

Features

ULTRAFILTRATION BENEFITS

- System operates at a low pressure
- Removes bacteria and viruses
- Keeps essential minerals in water
- Installs quickly and easily
- Does not generate waste water

Filters

Filter element adopts high quality food grade hollow fiber filter membrane and filtration accuracy up to 0.01 micron, it can remove bacteria, sediment, rust, colloid and heavy metals and other harmful substances in water.

3. Washable Cartridges

Filters

Outer-Pressure Type (PVDF-UF)

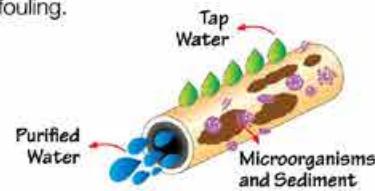

Material:
PVDF

Lifespan:
5 years

Density:
0.01μ

LEADING UF FILTER (PVDF) TECHNOLOGY : The flow direction is outside-to-inside, which is suitable for high turbidity water treatment because an air-scrubbing method can be adapted to remove suspended solids effectively.

- Modified PVDF for greater hydrophilicity, smoother, less fouling.
- Intercept bacteria and viruses.
- High chemical resistance.
- High intensity with membrane silk lining design.
- Washable design, easy to change-out.

Type 3-Stage Water Purifier System
(Quick Connector)

Operation Flow 1.5GPM

Operation Pressure 105 psi

Operation Temp. 45°C (113°F)

Port IN : 1/2" (4分), OUT : 1/2" (4分)

Installation Undersink / Counter-Top

FILTERS AVAILABLE: PLEATED FILTER, PP FILTER, UF FILTER, CARBON BLOCK FILTER, AC FILTER.

Pleated Filter (PLT)

Eliminates sediment particles and suspended solids from feed water up to 5 microns.

- Max Flow: 1.5GPM
- Max Temp.: 113°F (45°C)
- Max Pressure: 105 Psi
- Service life: 6~9 Months

Activated Carbon Block Filter (CB)

Absorbs some of harmful organic chemicals such as chlorine and VOC's pesticides from feed water, reduces sediment particles and the taste and odors.

- Max Flow: 1.5GPM
- Max Temp.: 113°F (45°C)
- Max Pressure: 105 Psi
- Service life: 9~12 Months

PP Sediment Filter (PP)

Reduces sediment particles such as dirt and sand down tonominal micron in size from feed water.

- Max Flow: 1.5GPM
- Max Temp.: 113°F (45°C)
- Max Pressure: 105 Psi
- Service life: 6~9 Months

Ultra Filtration Membrane Filter (UF)

Removes water contaminants such as waterborne micro-organisms and harmful organic chemicals etc.

- Max Flow: 1.0GPM
- Max Temp.: 113°F (45°C)
- Max Pressure: 105 Psi
- Service life: 9~12 Months

Activated Carbon Filter (AC)

Absorbs some of harmful organic chemicals such as chlorine and VOC's pesticides from feed water, reduces the bad taste and odors.

- Max Flow: 1.5GPM
- Max Temp.: 110°F (45°C)
- Max Pressure: 105 Psi
- Service life: 9~12 Months

SEDIMENT (ID: 1236191)

- Flow Rate : 1.7gpm(6.4l) at 60psi
- Pressure : 30-100psi (2.1-7kgf/cm²)
- Temperature : 35-100°F (2-38°C)
- Filtration : 5 microns
- Service Life : 2-4 months
- Function : Mechanical Reduction (Particulate, Dirt & Sand)
- Inlet / Outlet Size : 3/8 inch
- Flushing Time : 5 minutes or until water runs clear

MADE IN
KOREA

CB6 AMERICAN CARBON BLOCK (ID: 1236204)

- Original : USA
- Capacity : 34,000ℓ / based on NSF standard
3,600ℓ / based on KC standard
- Functions : Chemical / Mechanical / Reductions
- Flow Rate : 7.57 L/min
- Pressure : 10 - 125psi (0.7 - 8.6bar)
- Temperature : 35-100°F (2-38°C)
- Flushing : 15 Minutes
- Cold Water only

MADE IN
USA

SR6 BUILT-IN SCALE INHIBITOR (ID: 1236205)

- Original : USA
- Capacity : 34,000ℓ / based on NSF standard
- Functions : Chemical / Mechanical / Reductions
- Flow Rate : 7.57ℓ/min
- Pressure : 10 - 125psi (0.7 - 8.6bar)
- Temperature : 35-100°F (2-38°C)
- Flushing : 15 Minutes
- Cold Water only

PLASMA + UV-C AIR STERILIZER

Plasma Negative Ion and UV-C Sterilization System

MADE IN
KOREA

CLEARANCE
SALE
清仓

Proven and tested by :

INNOVATIVE
BIOANALYSIS

Model: PLASMA UV STERILIZER (SHIELD II)

Input Interface	USB Type-C DC 5.0V, 0.8A
Power consumption	3W
Sterilization Area	13.2 - 16.5m ²
Ozone Concentration	0.0005ppm (Below threshold)
Negative Ion Generation	20,000,000/cc
Dimension	175 x 175 x 40mm
Installed Battery	2,550mAh

Features

Proven and tested by : INNOVATIVE BIOANALYSIS

- Eliminates 99.9% of aerosol-State COVID-19 (SARS-CoV-2).
- Patented Double Sterilization (Plasma + UV-C)
- No filter needed
- Ozone-free. Passed the Ozone Emission Test
- Inhibits acetic acid, ammonia, acetaldehyde
- 4 fan speeds
- USB Type C charging
- Wireless operation. Operating time - 5 hours once fully charged. Can also be used in the powerbank.
- Charging time: 3-4 hours.

Patented Double Sterilization Technology

1. PLASMA ION STERILIZATION

A. Ionizing

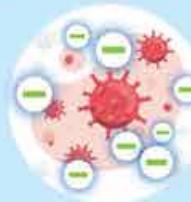

When oxygen in the air is charged by the ionizer, negative ions are generated.

B. Capturing & Neutralizing

Negative ions attract & bind with the airborne pollutants such as dust, pollen, smoke, bacteria and germs. Charge neutralization occurs.

C. Landing

The air pollutants get clustered and subside naturally to the ground instead of being inhaled into lungs.

2. UV-C STERILIZATION

At particular wavelengths such as 253.7nm and 254 nm, UV-C light is able to destroy the molecular bonds and disrupt DNA or RNA via pyrimidine dimerization, causing death of a variety of environmental microorganisms.

Great Features of AP-29G

NEGATIVE ION GENERATOR

- - ION

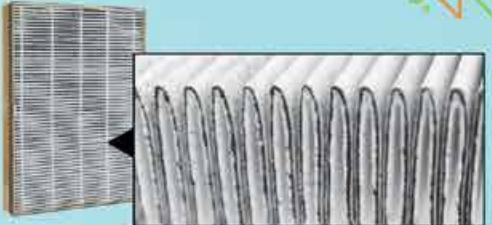

Negative Ion Claims as "Air Vitamins". AP-29G Air Purifier Equipped "Negative Ion Generator", can release high concentration of negative ions and work with positive ions efficiently to Eliminates odors, dust, smoke and pollen particles.

Eliminates PM2.5, Eliminates formaldehyde, Eliminates Haze, Eliminates Pollen, Eliminates Smoke, Eliminates Odors

TRUE HEPA

Removes up to 99% of particles

Panel & Pleated Filters

Model: AP-29G

CADR 302m³/h
 Noise Level 28-52dB
 Suitable Area 21-36m²
 Voltage 32W/220-240V/50Hz
 N.W./G.W. 7.8kg / 9.3kg
 Dimension 387*247*571cm
 Filter Type HEPA

Filters

PET Layer : Removes hair, fibers and other large particle pollutants

Coconut shell activated carbon Layer : Effective Decompose formaldehyde, VOC and other pollution

H11 HEPA Layer : Generate ion, purification and Remove particulate PM0.3, some bacteria, etc.

PET Layer : Remove large particles and protect HEPA Filter.

Features

Small and medium Purification
 Ideal for extra large room up to 26m²

Air quality indicator
 With an air quality sensor to conduct diagnosis

4-layer filter
 Multi-stage purification for clean air

Negative Ion Generator
 Eliminates odors, dust, smoke and pollen particles

Multi-Functionality
 4 fan speeds & 3 modes

Smart night mode
 Activated when surrounding turns dark

Replacement Filter
 For easy maintenance

Child Lock
 For safe usage

Timer
 For setting the hours to your need

TURBO COLD

EVAPORATIVE AIR COOLER

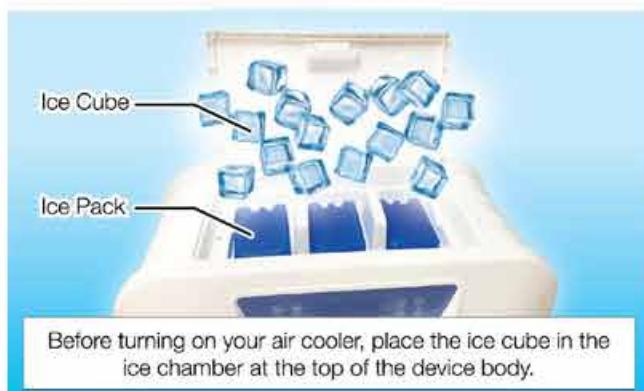

Model: SA-18D

Voltage	220-240V
Frequency	50Hz
Power	750W
Water Tank	100L
Max Airflow	22000m ³ /h
Dimension	(W)845mm x (D)570mm x (H)1380mm
N.W/G.W	30KG/32KG
Spare Parts	Motor, Water Tank, Honey Comb Filters, Electronic Parts & Other body parts

Features

- Comfortable fresh air
- Excellent cooling effect portable air conditioner
- 3 wind speed settings
- Move convenience
- Cross flow wind way, large air delivery
- Economical
- Honey comb pad
- ABS & PP plastic
- Swing & cool design
- Humidifier

EVAPORATIVE AIR COOLER

Model: SA-18 (SA-12D)

Voltage	220-240V
Frequency	50Hz
Power	480W
Water Tank	100L
Max Airflow	12000m³/h
Dimension	(W) 760mm x (D) 470mm x (H) 1290mm
N.W/G.W	28/32KG
Spare Parts	Motor, Water Tank, Honey Comb Filters, Electronic Parts & Other body parts

Features

- Comfortable fresh air
- Excellent cooling effect portable air conditioner
- 3 wind speed settings
- Move convenience
- Cross flow wind way, large air delivery
- Economical
- Honey comb pad
- ABS & PP plastic
- Swing & cool design
- Humidifier

Before turning on your air cooler, place the ice cube in the ice chamber at the top of the device body.

FILTER MATERIALS

硅胶晶 ANTSCALENT BALL

是对人体无害的聚合磷酸盐。可防止钙，镁形成水垢，降低水的硬度，在钢管和铜管等金属管内形成保护膜，防止腐蚀。
Harmless Polymerization Phosphate. It stops the scale and reduces hardness of water. And it can form a protection layer at the inner surface of the metal tubes to prevent corrosion.

远红外球 FAR-INFRARED RAY BALL

常温释放远红外线，加速水分子的运动，使水活化，并有除臭，抑菌的效果。

Emit Far-infrared Rays at normal temperature which promote the activity of water molecule and has the function of removing odor and inhibit bacteria.

活性碳 ACTIVATED CARBON

高效吸附余氯，臭味，色素，去除水中有机物残留杀虫剂等化学物质。
Good at removing Chlorine, unpleasant odor, color, spore, microorganisms and pesticide.

负电位能量石

NEGATIVE POTENTIAL ENERGY STONE
矿化 Mineralize water

锗球 GERMANIUM BALL

主要成分为锗粉，电气石，硅藻土等。
具有保健，美容和抗菌的功效。
Mineralize and anti-bacteria.

能量球 ENERGY BALL

主要成分为能量粉，电气石，硅藻土等。
具有保健，美容和抗菌的功效。
Activate and anti-bacteria.

离子交换树脂 ION EXCHANGE RESIN

强酸，强碱系列。用于硬水软化，稀有元素分离，分离和提取氨基酸，糖液脱色，药物提纯等。
widely used in industrial water treatment, separation, extraction and absorption of precious metals, decoloration of sugar solution, refining of medicaments, softening of hard water in thermoelectric plant.

活化弱碱性离子球 WEAK ALKALINE ION BALL

处理后生成的弱碱性离子水渗透和溶解力强，可以中和人体酸度，促进人体新陈代谢，降低心血管疾病的发生。
Activate and anti-bacteria. Neutralize human body's acidity.

麦饭石矿化球 MAIFAN STONE MINERAL BALL

矿化，抑菌。
Mineral, activated and anti-bacteria.

KDF

高效吸附水中的余氯，去除有害重金属离子，硫化物，抑制细菌藻类滋生。与活性炭同时使用可以延长活性炭的寿命。可用于热水的净化。

High absorbability to chlorine, heavy metal, sulphide, Inhibit the growth of bacteria. When being used with activated carbon, KDF can prolong the filtration life of the activated carbon. KDF can filter hot water.

液体钙球 LIQUID CALCIUM BALL

能瞬间有效去除水中的余氯，净化，矿化水质，调节水的PH值。吸附力高，并能深层超大面积净化，杀灭水中各种病原菌，抑制细菌微生物的繁殖与生长。并且对有毒有害金属离子有极强的吸附作用。

Remove the residual chlorine. Adjust the water PH value. Anti-bacterial and absorb harmful metal ions.

活性炭纤维 Activated Carbon Fiber

对有机气体及恶臭物质的吸附量比颗粒状活性炭大，对无机气体也有较好的吸附能力。对水溶液中的无机物，燃料，有机物及重金属的吸附量比颗粒状活性炭高5-6倍。耐酸碱，具有较好的导电性能和化学稳定性。

Higher absorbability to organic and inorganic gas, also the organism, inorganic substances, fuel, heavy metal in water. The carbon fiber has good resistance to acids and alkalis, and good conductance and chemical stability.

**Features & Benefits:**

- Linear Low Density Polyethylene
- Strong, Flexible and Robust
- FDA Compliant Materials.

- N8F-61 Certification
- Length: Various Length to be Applied
- Working Temperature : 40°C ~42°C

- Suggest Working Pressure:
- Under 125 PSI for 1/4", 3/8" Tube O.D.
 - Under 90 PSI for 1/2" Tube O.D.

HORIZONTAL MULTISTAGE S/S CENTRIFUGAL PUMP

Standard Type Pump
ID: 2510109

Pump & Automatic Pump Controller
ID: 101099

Model: **ATS440-VIP**

Material Stainless Steel 304 / 316
Flow Rate 0.5 m³/h ~ 22.0 m³/h
Delivery Head Max. 54m
Liquid Temp. -15°C ~ +110°C

Applications

Small-Sized Central Air Conditioning Circulation, Cooling System, Industrial Cleaning System, Environmental Protection, Water Treatment

VERTICAL MULTISTAGE S/S CENTRIFUGAL PUMP

ID: 134234411)

Model : **CDLF29, CDLF215, CDLF218**

Material Stainless Steel 304 / 316 / Cast Iron
Flow Rate 0.4 m³/h ~ 110.0 m³/h
Delivery Head Max. 305m
Liquid Temp. -15°C ~ +120°C
Applications Water Supply Of Boilers & Condensate System, Cooling & Air Conditioning System, Water Treatment In Environmental Protection, Infiltration Analysis System, Industrial Cleaning System, Municipal Water Supply & Boosting

WATER TANK - COMMERCIAL USE

请根据图示选购适合您需要的布水器，如有任何问题请联系我们。

Installing distributors according to the following illustrations, or any question, contact us.

一体成型PE内胆带卸料口罐体

One-piece PE liner tank with discharge port

产品优势

相较于普通PE内胆罐体，填料卸出更方便

相较于手糊卸料口罐体，品质更稳定，卫生状况更好。

Product Advantage

It is easier to discharge filling compared with normal PE liner tank;
Compare with tank woth hand layup molding discharge port, it is
more stable in quality and better in sanitary condition.

CONTROL VALVE

F56K (51204K)
Multi Port Valve
Working Pressure : 0.15~0.6 MPa
Water Temp. : 5°C ~ 50°C
Capacity : 4.5m³/h

F56A1
Multi Port Valve
Working Pressure : 0.1~0.8 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 4.5 T/hr

F56G1
Multi Port Valve
Working Pressure : 0.1~0.8 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 4.5 T/hr

F56A3
Turntable (Filter)
Working Pressure : 0.1~0.6 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 4.5 T/hr

TMF64A1
Manual Soften
Working Pressure : 0.1~0.6 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 4.5 T/hr

FM64AC Side Controller
Manual Softener Valve
Size : 2.5"

Top Mount TMF56D
Multi Port Valve Series
Working Pressure : 0.1~0.5 MPa
Water Temp. : 1°C ~ 80°C
Capacity : 10 T/hr

Side Mount
56D Manual
Size : 4"

Top Mount TMF64F
Manual Soften Valve
Size : 4"

268/740 Softener
GE Control Valve
Size : 3/4" ~ 1"

263/740 Filter
Autorol Control Valve
Size : 3/4" ~ 1"

F-5600SE Filter
Fleck Control Valve
Size : 3/4" ~ 1"

Fleck 5600 Softener
Fleck Control Valve
Size : 3/4" ~ 1"

TMF67B
Automatic Filter
Working Pressure : 0.1~0.6 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 6 T/hr

F75A1
Side Mount
Working Pressure : 0.1~0.6 MPa
Water Temp. : 1°C ~ 40°C
Capacity : 6 T/hr

TMF77B1 (Time Controlled)
Multi-Functional Flow
Suited Pressure : 0.2~0.6 MPa
Water Temp. : 5°C ~ 45°C
Capacity : 18 m³/hr

F77BS (Volume Controlled)
Multi-Functional Flow
Suited Pressure : 0.2~0.6 MPa
Water Temp. : 5°C ~ 45°C
Capacity : 15 m³/hr

BNT111
Diaphragm Valve

Stainless Steel Multi-Head
With SS56A3 Steering

SS56A1
Stainless Steel Coated
